

Gender in EPF's work

- **Patient involvement** => Value + project that looked at Gender dimension in research and in the involvement of patients
- **Clinical Trials** => we flagged gender imbalance
- **Discrimination** => Briefing paper where we comprehensively noted all grounds for discrimination in healthcare including sex & gender
- **Other areas:** information to patients/health literacy, access to healthcare, patient empowerment, eHealth, complementary and alternative medicines, personalised medicines

Source of information for patients
